

The Chinese University of Hong Kong
Seminar organized by
School of Life Sciences and Chemistry Department

**Learning from microbes to develop a catalyst for efficient
and selective methane oxidation under ambient conditions**

by

Professor Sunney I Chan

Institute of Chemistry, Academia Sinica, Taipei, Taiwan;
Department of Chemistry, National Taiwan University, Taipei, Taiwan;
California Institute of Technology, Pasadena, CA, USA

on

December 20, 2022 (Tuesday)

at

4:00 pm

At

**Rm 128, 1/F, Science Centre North Block,
The Chinese University of Hong Kong**
