To Train Future STEM Leaders

STEM Academy 2019

Co-organized by:
The Faculty of Engineering, CUHK & Science Academy for Young Talent, The Faculty of Science, CUHK

Course offered:

STEM1020B Robotics in the Real-World

Robotics is a fun, exciting and promising field of study as robots become increasingly common around us.

In this course, through hands-on learning with real robots, students will get to learn the applications of robots, how STEM study is integral to robotics and most important, to have fun!

For Students Studying in Secondary 4 to 6 or Equivalent*

* Students must have taken at least one science course which include Biology, Chemistry, Combined Science, Physics, Information and Communication Technology, Design and Applied Technology, Mathematics Extended Module 1 or 2

Date: 29 - 31 July, 1 - 2, 5 - 9 August 2019@

@ 12 and 13 August are reserved for make-up classes

Credits: 3 university credits

^ Students who complete the course and meet its requirements can opt for credit exemption when they study at CUHK

Course Fee: HKD 3,500#

# 1. Students who attend all sessions will be granted HKD 1,000 scholarship
2. Students who are receiving Comprehensive Social Security Assistance (CSSA) Scheme, the School Textbook Assistance (TA) Scheme and the Student Travel Subsidy (STS) Scheme can apply for fee remission at a specific rate

Application Period:
1 April - 17 May 2019

Online Application:
http://www.sci.cuhk.edu.hk/en-gb/sayt/application

Other Science Courses:
The Science Academy for Young Talent will offer a series of science summer courses in 2019 for S1- S6 students. You are welcomed to visit the website below for more course information:
