8 April 2022 (Friday)

16:00 – 17:00

Zoom Webinar in English

Host: Prof. YAM Sheung Chi Phillip

Assistant Dean (Education), Faculty of Science

Professor Ching is a professor at CUHK's Department of Physics. She is a theoretical physicist and her research interests lie in the general area of nonlinear complex systems including, in particular, fluid turbulence. She has received several awards and honours including Fellowship of the American Physical Society, Senior Research Fellowship of the Croucher Foundation, Achievement in Asia Award of the Overseas Chinese Physics Association (now known as the International Organization of Chinese Physicists and Astronomers), and the Faculty Exemplary Teaching Award. She is currently serving as an Associate Editor of *Physical Review E* and a member of the Editorial Committee of *Annual Review of Condensed Matter Physics*.
