

The [CUHK School Heads Alumni Association](#) (香港中文大學校友校長會) and the Faculty of Science, CUHK have initiated the STEM Internship Programme in 2021.

### Programme Objectives

- Promoting the theme of “Learning through Serving” and raising the sense of social responsibility;
- Enriching overall student learning experience and widening students' horizon;
- Providing opportunity for CUHK Science Students to gain relevant and practical experience through experiential training in schools;
- Achieving the spirit of caring for the alma mater, CUHK;
- Developing collaboration with “CUHK School Heads Alumni Association” and exploring future innovative projects

With the active participation of both schools and students, the impacts and benefits that the Programme can bring include:

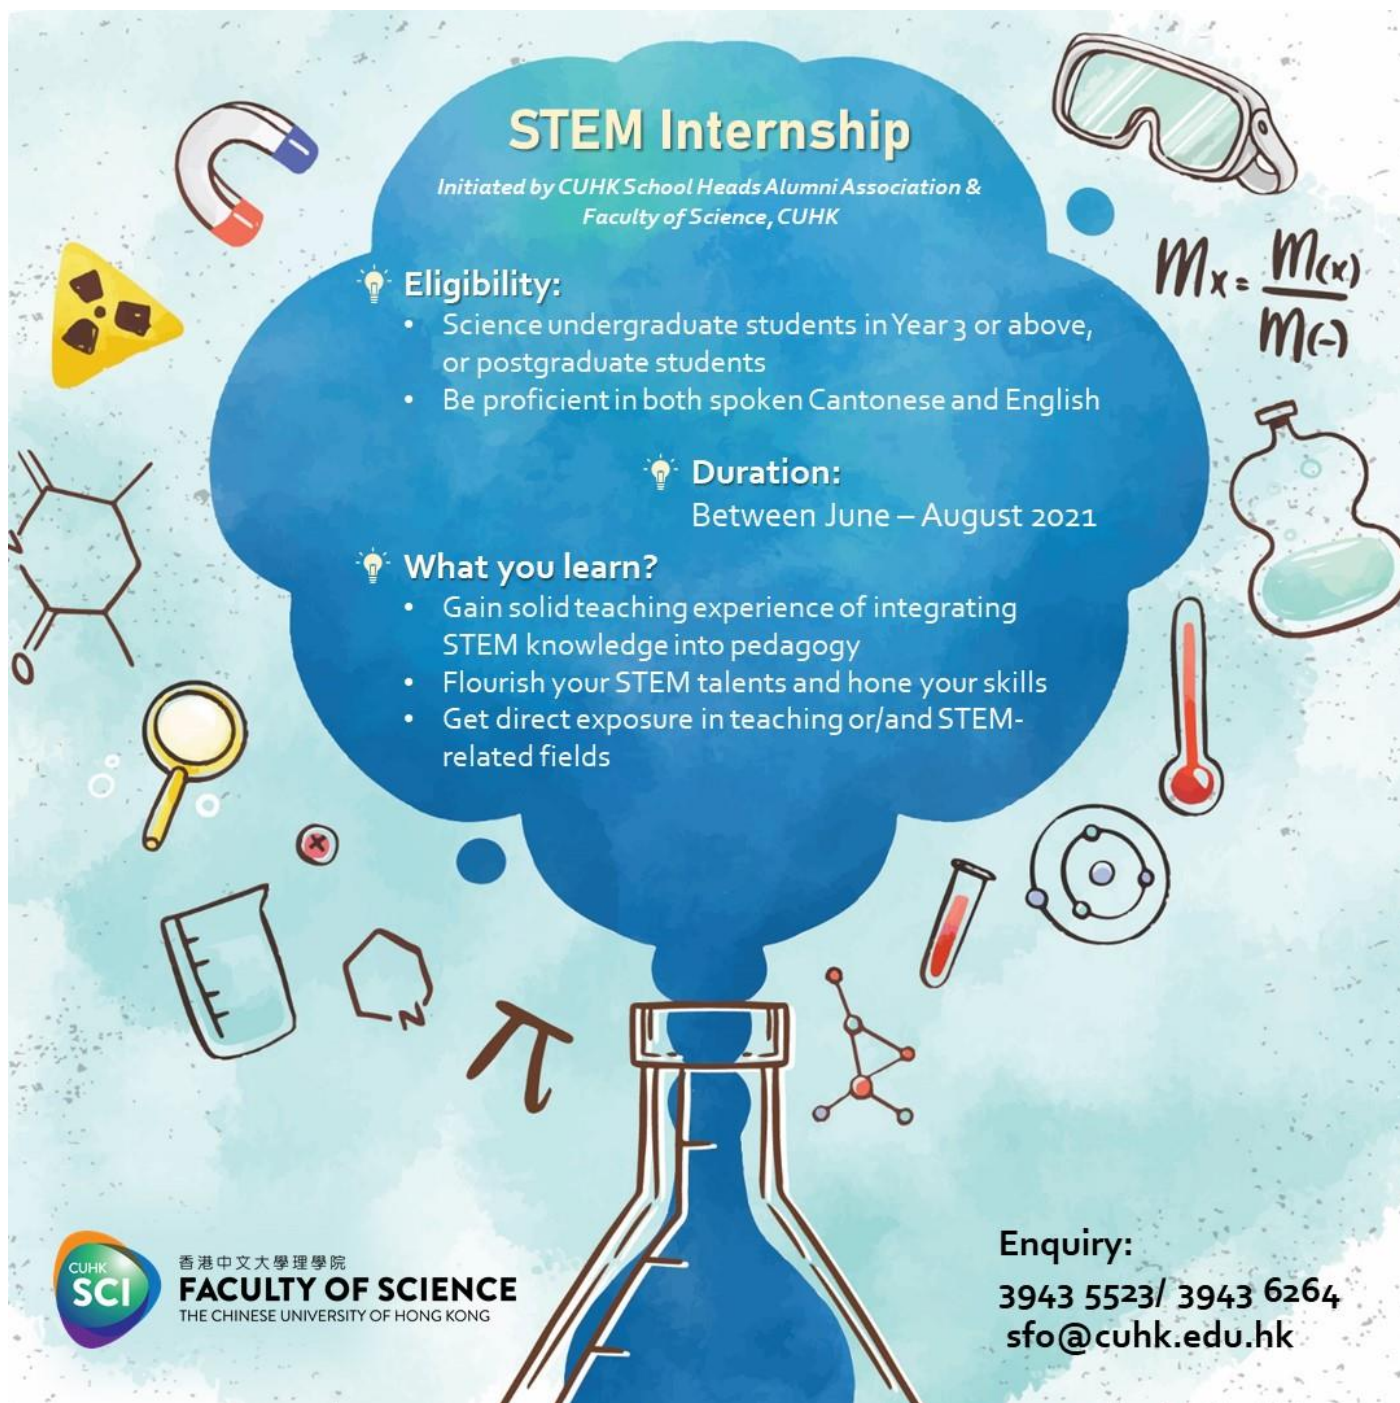

#### **To Participating Schools**

- Connecting with young generation and being inspired by new STEM learning trend and teaching technologies;
- Obtaining extra manpower to perform regular or ad hoc STEM teaching duties;
- Supporting young generation to pursue their goal and whole-person development through diverse on-the-job training for the good of the community

#### **To CUHK Science Students**

- Gaining practical experience towards future career development in teaching profession;
- Acquiring pedagogical skills through implementation/ engaging in teaching methodology;
- Leveraging presentation skills and STEM talent;
- Developing network
